

PARTNERS IN EDUCATION

Who we are

SANTA BARBARA **PARTNERS IN EDUCATION** is a non-profit organization with members from business, industry, government, elementary and secondary schools, community colleges, and four-year colleges. We began our efforts in 1977.

Our mission

SANTA BARBARA **PARTNERS IN EDUCATION** has as its central purpose the development of outstanding graduates in the Santa Barbara area.

The board of **PARTNERS** is a primary catalyst for focused and broad-based actions that yield excellence in our schools. The Council:

- implements cooperative programs between industry and education that foster school improvement, teaching excellence and student achievement
- provides a vital communication link among education and business, industry, labor, government agencies and professional, technical and scientific societies
- brings attention, ideas, programs and support to local school districts.

How you can help

Our community needs are growing rapidly, and **PARTNERS** is growing along with them. To enhance the excellence of our schools, we need your support. Will you join us and work with us to further our goals?

Your membership fee will support the activities featured in this brochure and many others. With your help, we can do even more. Please join us today.

Why you should join

1. To promote activities that will result in better-informed, better-educated students ready for the work force.
2. To participate in activities that impact the school curriculum and make it more relevant to the "real world."
3. To create positive educational opportunities for our young people.
4. To foster partnerships that enhance school/business collaboration.
5. To help build brighter futures for our students and strengthen our community.

How we help

Our objectives

- develop community awareness of school performance and needs
- identify competencies needed by graduates from our schools
- identify standards for school performance
- work to achieve maximum academic performance of ALL students
- strengthen the teaching profession
- advance the application of innovative practices and technology for school improvement
- promote access to postsecondary education for ALL graduates from the local schools

Our major committees/events
