ARTS CATALOG

The Arts Catalog is produced through the collaborative efforts of the Children's Creative Project and the Santa Barbara County Education Office. The purpose of the Arts Catalog is to provide a central and comprehensive collection of the culturally diverse, professional visual and performing arts resources from our region and beyond. In cooperation with the artists and arts organizations sponsored in the Arts Catalog, we will continue to expand opportunities for joyful creative experiences and cultural literacy for young people. The arts are important for the development of creative expression, creative problem solving and self-esteem. Young people who are involved in the arts develop a lifelong appreciation and can become active artists or future audience participants. The Children's Creative Project will continue to seek public and private funds to support the offerings of the Arts Catalog. These funds will support, in part, the arts education programs requested by schools and libraries in Santa Barbara and San Luis Obispo counties.

Children's Creative Project - Arts Catalog

The Children's Creative Project provides specially designed arts education programs. It serves as the liaison between the artists sponsored in the *Arts Catalog* and schools, school districts and libraries.

A school or library representative may contact the Children's Creative Project to request information regarding the programs for Resident Artist Workshops, Touring Artist Performances, Professional Development for Classroom Teachers and Family Programs. The Children's Creative Project will contact the artists or provide information to schedule programs, pay artists for services provided, and invoice schools and libraries for services received.

Each year the *Arts Catalog* is revised to update and expand its offerings. If you know of an artist or performing company that would enhance the catalog's resources, please contact the Children's Creative Project office. Your suggestions will be greatly appreciated.
