# PROFESSIONAL LEARNING COMMUNITIES

## **HyperStudio 5 for Today's Classroom**

Give your students the ability to create amazing multimedia, interactive projects with HyperStudio 5. Students today don't want to create the same old word processing reports - the new HyperStudio 5 offers podcasting, You-Tube support, as well as iTunes, iPhoto, and iMovie integration. Grade level curriculum reports will engage students as they present eye-catching, grade-level appropriate content - with easy-to-use intuitive tools. Come to this two-day workshop, in which you will learn all the features of HyperStudio, and create an example that you can bring back to the classroom. (1.1, 1.2 - L2)
