

TECHNOLOGY AT WORK IN YOUR PROFESSIONAL LEARNING COMMUNITY

SUMMER CLASSES 2010

co-sponsored by CTAP and Santa Barbara County Education Office

SOUTH COUNTY CLASSES

It's Elementary: Photoshop Elements for Classroom Teachers

Learn the basics of this powerful imaging program. Participants will learn to color correct digital photos, add text, use artistic filters, and prepare images for a variety of outputs. They will also develop ideas for creating standards based lessons.

South County
July 28-29 9 a.m. - 12 noon
SBCEO Tech Training Center, Santa Barbara
Electronic Resource: Photoshop Elements
Jerilynne Nibbe
Fee: \$75

Power Up Your Presentations

Learn to make dynamic, compelling, effective presentations that engage your audience and get your points across. This class is geared for classroom teachers and administrators who need to get information across to audiences in a manner that reaches a variety of learning styles. Areas to be covered include the following:

(1.1, 1.2, 2.3 - L3)

- avoiding design and layout blunders
- using fonts for readability and impact
- using graphics to present complex material in easy-to-absorb pieces
- using transitions effectively
- selecting template styles that suit the material and the presenter
- publishing your presentation on the Internet to reach a larger audience
- comparison of Keynote and PowerPoint

South County
July 30 9 a.m. - noon
SBCEO Tech Training Center, Santa Barbara
Electronic Resource: MS PowerPoint/Keynote
Jerilynne Nibbe
Fee: \$25

Desktop Publishing Using InDesign

Learn to use the popular desktop publishing program, InDesign, to create flyers, newsletters, and more. Learn to handle graphics, text and create your own professional-looking documents. **Jerilynne Nibbe** will gently guide us through the ins and outs of the new version. Learn how to format pages, insert graphics, and use Master Pages.

(1.1, 1.2, 2.3 - L3)

Moodle Skills for Educators

The buzz is that **Moodle** is the most exciting classroom resource since desks. We need to get educators up to speed on this *modular, object-oriented dynamic learning environment* - from certification through professional development course offerings. Attend this two-day training and join the county's cadre of Moodle experts. (1.4 - L2)

South County

Aug. 9- Beginning 9 a.m. - 3 p.m.

Aug. 10- Intermediate 9 a.m. - 3 p.m.

SBCEO Tech Training Center, Santa Barbara

Electronic Resource: Internet

**Jeanne Greenfield, Shelley Crawford, Steve Keithley,
& Kristen Walker**

Fee: \$75 two days, \$40 one day

iMovie and Film Production

The teacher will take those attending through a simple video project, which they'll each shoot and edit. This will involve a brief interview of another classmate and the recording of "B-roll" (supporting imagery). Most iMovie users shoot their own video, and this will be valuable if they teach such projects to their own students. The 2nd day will involve editing the interview with B-roll, stills from the internet, titles, and music. Then the teacher will take them through iMovie's different ways of assembling and outputting a piece that will be web-ready.

South County

July 15-16 10 -12a.m. - 1-3 p.m.

SBCEO Tech Training Center, Santa Barbara

Electronic Resource: iMovie

Ethan Turpin

Fee: \$75

PROFESSIONAL LEARNING COMMUNITIES

NORTH COUNTY CLASSES

Moodle: Empty Machine to Virtual Classroom

This two day course will focus on installing, configuring, maintaining and using a Moodle server for online presentation of content. The participants will learn to install a Windows based Moodle server, configure it for internal and external use, create classes and create content. This course is for anyone who wants to do more than just add content to a class. Limit: 12 participants. Pre-requisite: a good understanding of Windows file structure. This is not a course for beginning users.
