

Preliminary Administrative Services Credential Program

In today's educational environment of standards-based reform, high stakes accountability and challenging state and federal mandates, it is essential that school and district leaders gain command of proven strategies that promote excellence in teaching and learning. The **Santa Barbara County Education Office** is an accredited Tier I provider with a proven track record of program and professional support for educators. We know how to develop leaders who have a deep understanding of the actions that result in student achievement gains.

Through its **Preliminary Administrative Services Credential (PASC/Tier I) program**, leadership candidates are provided with the research-based approaches, tools, models, and information needed to be a successful leader, especially when facing the challenges created when schools are undergoing the transformational change necessary to improve academic success.

Face-to-face classes and **online coursework** provide opportunities for acquiring and developing leadership and administrative skills and dispositions. In-depth **fieldwork** results in significant learning about the work of school administrators in support of student learning. The program prepares teacher leaders and aspiring administrators to create a culture of learning and successfully lead staff and students to higher levels of performance.

Santa Barbara County Education Office Administrative Credential Programs

Schools and districts are facing unprecedented challenges in a standards-based system that demands high levels of student achievement.

Santa Barbara County Education Office offers the Preliminary Administrative Services Credential (Tier I) program for teacher leaders and aspiring administrators, and the ATP Administrator Training Program (Tier II) for practicing administrators. Both programs are approved by the California Commission on Teacher Credentialing (CCTC) and are designed to prepare exemplary leaders who can manage and leverage proven strategies that promote excellence in teaching and learning. Successful completion of both programs results in a clear administrative credential.
