In the pages that follow, please describe the school’s plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs.

**Stakeholder Involvement**

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

**Involvement Process for the SPSA and Annual Review and Update**

JCCS Administration meets regularly with the JCCS Leadership Team which is comprised of the lead teacher from each of the three school sites, a Special Education Teacher, a Teaching Assistant, the Student Data Advisor, the Special Education Coordinator, and the Testing Coordinator. This team reviews progress on the SPSA and makes recommendations. The Leadership Team meet on 9/20/18, 10/11/18, 11/29/18, 1/17/19, 4/11/19, 6/20/19. In addition, the JCCS Parent Student Advisory Committee (PSAC) meets quarterly to provide input and guidance. PSAC meet on 9/26/18, 2/13/19, 3/27/19, 5/15/19

**Goals, Strategies, & Proposed Expenditures**

Complete a copy of the following table for each of the school’s goals. Duplicate the table as needed.

**Goal 1**

English Learners who test with JCCS for two consecutive ELPAC administration cycles will demonstrate annual progress in English.

**Basis for this Goal**

English Learners are a recognized subgroup in California as having specific needs that require additional support. JCCS has a higher than average EL population with 36.3% of our student population identified as English Language learners.

### Goal 2

All students enrolled 85 days or more will show progress towards proficiency in ELA as measured by state and local assessments.

### Basis for this Goal

Provide greater support for students in English to fill in their educational gaps; assist in credit recovery when needed; achievement in ELA core curriculum; prepare them for standards test.

Goal 3

Students enrolled 85 days or more will show progress towards proficiency in Mathematics as measured by state and local assessments.

Basis for this Goal

Provide greater support for students in Mathematics to fill in their educational gaps; assist in credit recovery when needed; achievement in Math core curriculum; and prepare them for standards test. It should also be noted that 83% of JCCS students have not yet completed Algebra in their home districts, making it extremely difficult for them to perform well on a test that assesses Algebra, Geometry and Algebra 2.

Goal 4

Academic achievement and the social/emotional well-being of students will be improved through a strategic focus on enhancing school culture, climate, and safety.

Basis for this Goal

Increase attendance, reduce suspensions, increase the number of students returning to their home districts with accelerated progress, and provide counseling to support students with addiction and behavior concerns.

**Goal 5**

SBCEO, in agreement with the local school districts in northern Santa Barbara County, is committed to transitioning students though the JCCS system and back into the most appropriate educational setting upon their release.

**Basis for this Goal**

Provide a successful transition for youths; continuity of students' academic career, collaboration among agencies, facilities, families, and community stakeholders to ensure students are transitioned to the most appropriate school setting based on their individual needs.

Addendum

The Single Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California’s ESSA State Plan significantly shifts the state’s approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state’s Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.
Basic Plan Requirements

A school receiving funds allocated through the ConApp is required to develop a SPSA. The content of a SPSA must be aligned with school goals for improving student achievement. School goals must be based upon an analysis of verifiable state data and may include any data voluntarily developed by districts to measure student achievement.

The SSC is required to develop the SPSA, which must address each of the following, as applicable:

1. A description of curricula, instructional strategies and materials responsive to the individual needs and learning styles of each student (described in the Strategies/Activities).

2. A description of instructional and auxiliary services to meet the special needs of non-English-speaking or limited-English-speaking students, including instruction in a language these students understand; educationally disadvantaged students; gifted and talented students; and students with exceptional needs (described in the Strategies/Activities).

3. A description of a staff development program for teachers, other school personnel, paraprofessionals, and volunteers, including those participating in special programs (described in the Strategies/Activities).

4. An identification of the schools’ means of evaluating progress toward accomplishing its goals (described in the Expected Annual Measurable Outcomes) and an ongoing evaluation of the educational program of the school (described in the Annual Review and Update).

5. A description of how funds provided to the school through the ConApp will be used to improve the academic performance of all pupils to the level of state performance goals (described in the Proposed Expenditures for Strategies/Activities).

6. The proposed expenditures of funds available to the school through the programs described in EC Section 52851. For purposes of this subdivision, proposed expenditures of funds available to the school must include, but not be limited to, salaries and staff benefits for persons providing services for those programs (described in the Proposed Expenditures for Strategies/Activities).

7. The proposed expenditure of funds available to the school through the federal Improving America’s Schools Act of 1994 and its amendments. If the school operates a state-approved schoolwide program in a manner consistent with the expenditure of funds available to the school pursuant to EC Section 52851, employees of the schoolwide program may be deemed funded by a single cost objective.

8. A description of how state and federal law governing programs identified in EC Section 64000 will be implemented, as applicable (described in the Strategies/Activities).

9. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC.

Authority cited: EC sections 64001(f)-(g) and 52853(a)(1)-(7).
Schoolwide Program Requirements

A school receiving funds allocated through the ConApp and operating a schoolwide program (SWP) must describe how the school will carry out each of the following components:

1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will
   a. provide opportunities for all students, including socioeconomically disadvantaged students, students from major racial and ethnic groups, students with disabilities, and English learners, to meet the challenging state academic standards.
   b. use effective methods and instructional strategies based on scientifically based research that
      i. strengthen the core academic program in the school;
      ii. provide an enriched and accelerated curriculum;
      iii. increase the amount and quality of learning time;
      iv. include strategies for meeting the educational needs of historically underserved populations;
      v. help provide an enriched and accelerated curriculum; and
      vi. are consistent with, and are designed to implement, state and local improvement plans, if any.
   c. address the needs of all students in the school, but particularly the needs of those at risk of not meeting the challenging state academic standards, through activities which may include the following:
      i. strategies to improve students' skills outside the academic subject areas;
      ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
      iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
      iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
      v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.

2. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).

3. A description of how the school will ensure instruction by highly qualified teachers and provide ongoing professional development, including
   a. strategies to attract highly qualified teachers;
   b. providing high-quality and ongoing professional development that is aligned with the state's academic standards for teachers, principals, paraprofessionals and, if appropriate, pupil services personnel, parents, and other staff, to enable all students in the school to meet the state's academic standards;
c. the devotion of sufficient resources to effectively carry out professional development activities; and

d. the inclusion of teachers in professional development activities regarding the use of academic assessments to enable them to provide information on, and to improve, the achievement of individual students and the overall instructional program.

4. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).

5. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to

   a. Ensure that those students’ difficulties are identified on a timely basis; and
   b. Provide sufficient information on which to base effective assistance to those students.

6. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.

7. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
