

# SBCEO Transition Plan & FAQs

Updated August 12, 2020, 4:30 p.m.

## SBCEO Transition Plan

Throughout the pandemic, four leading principles have guided SBCEO's approach to reopening:

- Protecting the health and safety of our staff and their families.
- Supporting the wellness of our employees.
- Maintaining excellent service and leadership throughout the county, for schools and districts, and programs, staff, and employees.
- Being responsible stewards of taxpayer dollars.

The FAQs below are intended to provide general guidance for all SBCEO employees. Guidance may change based on individual circumstances, recommendations, or orders from federal, state, or local authorities.

## **PREVENTING THE SPREAD**

**What is my role in preventing the spread? How do I minimize my risk and that of others?** As members of the Santa Barbara County community and part of the SBCEO family, we are each responsible for our own actions. While SBCEO does not monitor employees' activities outside work, please consider how your actions at and away from work may affect your colleagues. The expectation is that SBCEO employees follow the state and local health orders and guidance. These include:

- Staying home if you are sick.
- Staying home except for essential needs/activities.
- Practicing physical distancing – stay 6 feet away from others.
- Wearing a cloth face covering if you leave home.
- Washing hands frequently with soap and water for at least 20 seconds.
- Following SBCEO cleaning protocols for frequently touched surfaces when you are at work.
- Not touching eyes, nose or mouth.
- Covering your cough or sneeze with a tissue or your elbow and washing hands afterwards.
- Avoiding close contact with people who are sick. (Close contact is defined as 15 minutes or more within 6 feet.)

*If you are in an environment in which you are in close contact (within 6 feet for 15 minutes or more) with someone who has tested positive for COVID-19 or who has been exposed, contact your supervisor immediately about the appropriate action to take in returning to work. In some cases, isolation or quarantine may be necessary. If you are experiencing symptoms that are unusual and are not related to chronic or known conditions, please stay home and contact your health provider for direction.*

**What actions should I take before coming to work?** All employees are required to complete the Wellness Check Affirmation, which includes the agreement to perform a daily self-evaluation for symptoms of COVID-19 before you come to work. Do not come to work if you are experiencing [symptoms associated with COVID-19](#) (fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea). Stay home if you are experiencing any of those symptoms not due to a chronic or known condition.

*Employees should utilize established call-in procedures if they need to stay home due to having any of these symptoms. Individuals experiencing symptoms of COVID-19 should contact their healthcare provider. Employees may use sick leave, vacation or compensatory time (classified only), and/or other entitlement/differential pay as available, consistent with leaves policy. Employees may also be eligible for up to two workweeks of emergency paid sick leave at their full pay rate prior to use of personal leaves if a healthcare provider advises them to quarantine or if they are experiencing symptoms consistent with COVID-19 while seeking a medical diagnosis. A note from a medical professional may be required if the employee requests emergency paid sick leave and/or plans to use leaves other than vacation or compensatory time (classified only).*

**What is the guidance on [travel](#)?** The current guidance encourages limiting travel to that which is urgent and recommends avoiding travel for vacations or pleasure as much as possible. If you do travel, the following is recommended:

1. Do not travel if you are sick or if someone in your household has had coronavirus in the last two weeks.
2. Do not travel with someone who is sick.

Before traveling away from your community, consider these questions from [CDC](#):

- Is coronavirus spreading where you are traveling?
- Are you or those you are traveling with more likely to get very sick from coronavirus?
- Will you be able to keep 6 feet of physical distance from others during or after your trip?

If you do travel, take steps to keep everyone safe such as wearing a face covering, keeping 6 feet of physical distance from those not in your household, and washing your hands frequently. Discuss with your supervisor and/or division lead any questions you have about returning to work before and/or after you travel.

## **AT-WORK: OFFICE PROCEDURES**

**What are the requirements when entering and exiting the worksite?** Employees are required to wear a face covering from your car and to your car and use the most direct route when entering and exiting the workplace to minimize contact with others and support physical distancing. Please wash your hands or use hand sanitizer upon arriving at your worksite.

**Is there a limitation on the number of times I can leave and come back in one day?** No, you may leave for appointments, lunch, and to perform work duties at another site consistent with your responsibilities and schedule. Please make sure to follow all health and safety protocols when you leave and return.

**Will I be able to leave and go on walks?** Yes. Outdoor walks and fresh air are highly encouraged. However, please adhere to the need for physical distancing and the need for face coverings when physical distancing is not possible.

**How should I be handling office supplies, equipment, and other tools?** Avoid sharing office supplies and tools, if possible. Use a tissue or gloves to avoid directly touching surfaces other than those at your workstation. If you must touch equipment, such as a copy machine, please sanitize the item after use. SBCEO -provided sanitizing materials should be made available in communal areas. Please contact your supervisor if you need additional sanitizing materials.

**Do I need to wear a [face covering](#)?** You are required to wear a face covering over your nose and mouth anytime you are moving about your workplace or are within six feet of others without barriers in place. For those with a desk workspace, you are not expected to wear a face covering while at your desk. If you forget your face covering or it becomes unwearable, please ask your supervisor to provide you with a disposable face mask. Please contact your supervisor or Human Resources if you have a medical condition that may impact your ability to wear a face covering.

**Will I need to wear Personal Protective Equipment (PPE)?** Some positions, particularly those that require work directly with students, will necessitate the use of PPE such as gloves, face shields with a cloth drape, safety coveralls, booties, aprons, and/or disposable masks. Your supervisor will inform you if you need to utilize this equipment. SBCEO will provide PPE for staff who work with students.

**What physical changes have been made to our worksites due to COVID-19?** Reception counters and areas identified as having high traffic at our three main campuses now have plexiglass shields. Some offices and classrooms have been configured differently in order to accommodate physical distancing. Doors and windows may be kept open to promote ventilation and minimize the need to touch door handles. Furniture has been removed or rearranged to promote health and safety protocols. Stairwells at Cathedral Oaks are one-way. However, hallways generally remain bi-directional. Additional signage has been posted around our three main campuses and approved

signage is available [here](#) for download. Please do not create your own signage as we must ensure that signage is consistent with worksite policies and protocols.

**What are our cleaning and disinfecting procedures?** SBCEO custodians are following the guidance of SBCPHD/CDPH. At our three main office campuses, they are cleaning and disinfecting restrooms, employee break rooms, and high-contact surfaces such as door handles and light switches, a minimum of once or twice/day depending on the usage. Office spaces are disinfected every evening as needed. Use the appropriate signage found [here](#) to indicate the need for cleaning. Workspaces should remain clutter-free to aid in the efficient cleaning processes.

SBCEO will work closely with school districts and any other organizations who manage the spaces in which classrooms and sites are located to ensure that routine cleaning procedures have been established in accordance with state and local Public Health guidance. For any sites where it has been determined that procedures for cleaning cannot otherwise be established by the host site in accordance with state and local Public Health guidance, SBCEO shall arrange for cleaning service.

Staff are expected to sanitize common areas and equipment they use during the day as needed. Cleaning supplies for sanitizing are available from your department. Please contact Human Resources if you need more information about staff training requirements.

**Are in-person meetings permitted?** Virtual meetings are encouraged whenever possible to minimize exposure to people outside your regular work cohort. However, in-person meetings are allowed, provided there is appropriate physical distance of six feet between participants. CDC information on physical distancing may be found [here](#). For meetings in which there cannot be physical distancing, face coverings are required at all times. All public meetings will be conducted virtually until large gatherings are permitted by state and local authorities.

**Can I reserve a meeting or conference room?** Meeting rooms at our three main campuses can be reserved on the Intranet. You must be on campus or logged in through the Citrix server to access the reservation forms while off campus. Reservations for the Multimedia Training Center (MTC) can be made by contacting Pat Noronha at [pnoronha@sbceo.org](mailto:pnoronha@sbceo.org). Please note that the capacity of all meeting rooms has been reduced in order to accommodate physical distancing.

Shared meeting rooms must be cleaned and disinfected after each use. Please use the [signs](#) to alert maintenance staff to the need for disinfecting.

Larger shared meeting rooms (Cathedral Oaks – Auditorium, Board Room, Cabinet Conference Room, MTC; Hope – Board Room; North County – Board Room) are disinfected each evening as needed. Each room can only be used for one meeting before 1 p.m. and one meeting after 2 p.m. to allow time for disinfecting in between meetings. Upon completion of any meeting ending prior to 1 p.m., contact Debbie Breck (Cathedral Oaks/Hope) or Debra Hood (North County) to ensure room is disinfected prior to afternoon meeting." In rare circumstances, additional use will be allowed as maintenance staff are available.

Smaller rooms, such as departmental conference rooms in Human Resources, School Business Advisory Services, Special Education, and the Superintendent's Conference Room, are cleaned every evening, as needed. If the room is needed more than once per day, the employee using it is responsible for disinfecting surfaces touched during use such as tables, chairs, light switches and door handles.

**What are the revised room capacities?** *Maximum room occupancy signs are posted in every meeting room and break room. They are also listed in [Attachment A](#).*

**Are our offices open to visitors?** *Our offices are closed to walk-in visitors and family members of employees. We encourage staff to conduct business with non-employees remotely or electronically whenever possible. Some situations that require in-person short-term visits by non-employees may be handled through pre-arranged appointments. Visitors must be notified of this information verbally or in writing (a [flyer is posted under the Reference Materials](#)) prior to their visit.*

*All short-term visitors must:*

- wear a [face covering](#) over their nose and mouth at all times.
- maintain [physical distance](#) of 6 feet from others whenever possible.
- [wash](#) or [sanitize](#) their hands. Restrooms and/or touchless hand sanitizer stations are available at our locations.
- Follow all other SBCEO health and safety protocols when requested to do so.

*Scheduled maintenance or repair work by outside contractors may also be arranged as needed. These outside workers will be required to verbally check in/out with the department staff who contracts with them and must follow all SBCEO health and safety protocols. If you need to schedule an outside worker such as a copier repair technician, please contact Debbie Breck (Cathedral Oaks/Hope) or Debra Hood (North County) to coordinate approval and scheduling of work. \*Guidance for independent contractors, as opposed to service technicians, is below.*

**What are the expectations for independent contractors or non-public agency staff working on campus or with SBCEO students?** *Individuals whose scope of work brings them on campus must follow the same protocols as employees. Managers will be responsible for sharing the SBCEO protocols with the agencies and individuals whose services they engage.*

**Will there be different guidance for staff working with students?** *Yes. CDPH, CDE, and SBCPHD all released guidance on TK-12 schools as well childcare (preschools). Your department or program supervisor will provide you with details specific to your program.*

## **EMPLOYEE ILLNESS & CONTACT TRACING**

**What is the appropriate course of action if an employee at work has visible symptoms associated with COVID-19?**

*The employee's supervisor should ask the employee displaying the symptoms if the symptoms are **due to a chronic or known condition** and, if they are not, the employee will be asked to go home. As a public employer, we are required to maintain safe and healthy working conditions for employees and use reasonable care in order to provide for the safety of other employees and students by furnishing a safe work and learning environment.*

*If a co-worker has concerns about another employee's symptoms, they should report their concerns to their own supervisor and/or the other employee's supervisor so the supervisor(s) can take appropriate action. Employees who are sent home may return to work when they have been asymptomatic for 72 hours and/or if they have provided documentation of medical clearance to return to work.*

*If the employee displaying the symptoms confirms that they are due to a chronic or known condition, they may remain at work.*

**What actions should I take if I develop symptoms during the workday?** *If you develop symptoms during your shift that are unusual and are not related to chronic or known conditions, let your supervisor know and immediately return home or go to a healthcare facility as needed. As a public employer, we are required to maintain safe and healthy working conditions for employees and use reasonable care in order to provide for the safety of other employees and students by furnishing a safe work and learning environment.*

**When can I return to work after having symptoms?** *Employees may return to work when they have been asymptomatic for 72 hours and/or if they have provided documentation of medical clearance to return to work.*

**How will contact tracing be handled should an employee or student contract COVID-19?** *If you have a confirmed diagnosis of COVID-19 or have been in close contact with someone with a confirmed diagnosis, inform your supervisor immediately. Your supervisor will work closely with Human Resources to determine who may have had exposure and the proper communication and action that needs to occur with SBCPHD. If you are not at one site 100% of the time, please keep track of your worksite locations and individuals with whom you have had contact in the event Human Resources or Public Health needs information for purposes of contact tracing. If a student has a confirmed case of COVID-19, SBCEO will work closely with Public Health to determine the appropriate course of action for employees who may have been in close contact with the student.*

## **INDIVIDUAL CONCERNS**

**What if I am age 65 years or older or have a medical condition that may put me at-risk for more severe illness from COVID-19?**

*Individuals 65 years old and older and/or those who have medical conditions that put them at-risk for more severe illness may continue to work at our worksites. Please speak to your supervisor and/or Human Resources to initiate an interactive process meeting if your healthcare provider indicates that your membership in a high-risk group impacts your ability to perform your work duties.*

**What if I am pregnant?**

*According to the CDC, pregnant people might be at increased risk for severe illness. Pregnant SBCEO employees are advised to consult with their healthcare provider.*

**What are my options if I don't have access to childcare or need to provide supervision and assistance to my children while they participate in distance learning?**

*We understand that many of our staff have children and are or will be in need of childcare and/or supervision for their school-aged children as TK-12 schools reopen with distance learning only. Resources are available to assist you in finding providers of childcare and supervision including: [www.sbfcc.org](http://www.sbfcc.org), [www.sanluischildcare.org](http://www.sanluischildcare.org), [www.capslo.org](http://www.capslo.org), and [www.mychildcare.ca.gov](http://www.mychildcare.ca.gov).*

*Employees may also be eligible for new types of protected leave under the Families First Coronavirus Response Act (FFCRA), effective April 1, 2020, through December 31, 2020. An employee may receive up to 12 workweeks of leave paid at 2/3 the employee's regular pay rate for up to \$200 daily and \$12,000 total in aggregate.*

The employee may also use other eligible paid leave to supplement the 2/3 paid leave such as personal necessity (subject to applicable maximums), personal compelling, and compensatory time or vacation (classified). Prior use of leave during the past 12 calendar months that qualified under the Family and Medical Leave Act will limit the total workweeks of employee eligibility for this new paid FFCRA leaves. For more information watch the video of our FFCRA Q & A video [here](#) or contact Human Resources.

## **WHAT IS MY PAY STATUS IF...**

### **I am placed under an official isolation?**

*In the event an employee is placed under an official isolation issued by the Santa Barbara County Public Health Department or other governmental authority, the employee shall continue to receive full pay for the duration of the official isolation and will not use personal leaves. Appropriate documentation will be required.*

### **I am quarantined due to close contact with an individual diagnosed with COVID-19?**

*An employee who has had close contact with an individual who has tested positive for COVID-19 shall inform SBCEO promptly and quarantine for 14 calendar days from the last date of exposure to the individual. During the quarantine, the employee shall self-monitor for any potential symptoms **that are not due to a chronic or known condition** such as fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea. It is recommended that the employee seek guidance from a healthcare provider under these circumstances.*

*The employee may be eligible for up to two workweeks of emergency paid sick leave at their full pay rate if a healthcare provider advises the employee to quarantine or if the employee is experiencing symptoms consistent with COVID-19 while seeking a medical diagnosis. A note from a medical professional may be required if the employee requests emergency paid sick leave and/or plans to use leaves other than vacation (classified only) or compensatory time (classified only). In the event Public Health mandates that the employee quarantine as a result of contact tracing, the employee will not use any personal leaves for the duration of the quarantine. Employees who quarantine without healthcare provider guidance or a mandate from Public Health will use all available paid leaves including sick leave, vacation or compensatory time (classified only), and/or other entitlement/differential pay as available, consistent with our leave policy.*

### **My worksite is temporarily closed in response to COVID-19?**

*During any closure of an SBCEO facility and/or curtailment of any SBCEO operations due to the COVID-19 pandemic, employees will not suffer any loss of pay or benefits relative to their regular schedule and assignment for the period of closure or curtailment so long as they are ready and available to work during regularly assigned work hours.*

*During a closure, employees must be reachable at all times during their regular work hours, abstain from alcohol and other substances, and be available to report to work within one hour of notification to perform assigned duties as needed, whether on-site, remote, or a combination thereof. During a closure, pre-approved vacation (classified), off contract (certificated and management), and sick leave shall continue to be used as originally planned, and the employee*

*will not be expected to be available or on-call to work during those leaves. The employee may request to amend pre-approved sick leave under extenuating circumstances such as the cancellation of a surgery or medical appointment.*

### **I am sent home due to visible signs of illness?**

*An employee sent home from work due to visible signs of illness (not due to a known or chronic condition) shall remain home until asymptomatic for at least 72 hours. Should it be officially determined by a government agency or healthcare provider that the employee has COVID-19, the employee shall remain in full paid status for the period absent and shall not be required to use personal leaves. Any personal leave balances used by the employee before receiving an official Public Health isolation order shall be restored upon SBCEO's receipt of required documentation.*

### **I need to care for an ill or quarantined individual?**

*Employees may be eligible for up to two workweeks of emergency paid sick leave at 2/3 their regular rate of pay when caring for an individual who resides in their home, is an immediate family member, or with whom the employee has a relationship that creates an expectation of care; this emergency paid sick leave is separate from the employee's SBCEO leave balances and may be used prior to any personal leaves. The employee may supplement the 2/3 pay rate with other available paid leaves consistent with leave policy such as personal necessity, or vacation or compensatory time (classified only). If the employee needs additional leave after the emergency paid sick leave has been exhausted, the employee may use any remaining eligible paid leaves. If the individual for whom the employee is caring is diagnosed with COVID-19, the employee shall quarantine for 14 days after the last date of close contact with the individual. A note from a medical professional may be required.*

## **OTHER BENEFITS**

### **What is the Emergency Family and Medical Leave Expansion Act (EFMLEA)?**

*Employees who have been employed for at least 30 calendar days and have childcare issues (for children under age 18) as a result of the closure of school or place of care (or unavailability of childcare provider) may be entitled to up to 10 workweeks of paid leave for childcare purposes at a rate of 2/3 their regular rate (maximum \$200/day and \$10,000 total) during the current state of emergency related to the COVID-19 pandemic. EFMLEA leave may be taken intermittently. This leave is above and beyond the initial two workweeks of emergency paid sick leave for childcare issues, also paid at 2/3 the employee's regular pay rate (maximum \$200/day and \$2,000 total).*

### **Can I get paid leave under the new Emergency Paid Sick Leave Act?**

*Under the new legislation, employees may be eligible for up to two workweeks of emergency paid sick leave; this emergency paid sick leave is separate from the employee's personal leave balances and may be used prior to any personal leaves. Circumstances that may be eligible for emergency paid sick leave (at the pay rates specified) include the reasons listed below.*

Full Pay (maximum \$511/day and \$5,110 aggregate):

1. *The employee is subject to a quarantine or isolation order related to COVID-19 by federal, state, or local government; or*

2. The employee has been advised to self-quarantine related to COVID-19 by a healthcare provider; or
3. The employee is experiencing COVID-19 symptoms and seeking a medical diagnosis;

2/3 pay (maximum \$200/day and \$2,000 aggregate):

4. The employee is caring for an individual who is subject to (1) or (2) above; or
5. The employee is caring for a son or daughter whose school or place of care is closed or whose caregiver is unavailable due to COVID-19 precautions; or
6. The employee is experiencing a “substantially similar condition” as specified by certain federal agencies.

### **Are employees who lose pay as a result of COVID-19 eligible for unemployment benefits?**

The California Employment Development Department determines whether workers are eligible for unemployment benefits; please refer to the EDD’s [COVID-19 FAQs](#) for additional information. Employees who wish to file unemployment claims may do so on the [EDD website](#). Employees who need wage history information to file with their unemployment claim should contact SBCEO Payroll ([payroll@sbceo.org](mailto:payroll@sbceo.org)).

### **Are employees who lose pay as a result of COVID-19 eligible for Paid Family Leave benefits through the California Employment Development Department?**

Because public schools do not participate in the State Disability Insurance (SDI) system, SBCEO employees are not eligible for Paid Family Leave benefits, which are paid from SDI contributions.

## **DISASTER SERVICE WORKERS**

### **I signed the Oath of Office when I was hired, and I am wondering what that means given the COVID-19 situation?**

Pursuant to the California Emergency Services Act, any person employed by a county, city, state agency, or public district in California is a public employee and therefore considered a Disaster Service Worker. This means that in the event of an emergency, you may be called upon to aid in the response and recovery phases of a disaster or emergency, including approved and documented training necessary or proper to engage in such activities. As a Disaster Service Worker, you may be asked to carry on with your work as usual, or you may be asked to do something different from your everyday job.
