The School Business and Advisory Services department works with each school district to assist them in complying with legal mandates by the California Education Code and to provide quality services and support in all areas of school business administration and finance. In addition to mandated services, our department also provides services designed to enhance fiscal management in the school districts in Santa Barbara County. Our primary goal is to promote sound fiscal management practices for twenty districts, community colleges, and charter schools through responsive technical and financial advisory services in the following areas:

- **AUDITING ACCOUNTS PAYABLE**                      *Process and audit accounts payable payments for all districts, including 1099 reporting.*
- **ATTENDANCE REPORTING**                              *Provides county-wide submission of attendance for districts.*
- **ADVISORY SERVICES, BUDGET DEVELOPMENT AND MONITORING**                      *AB 1200 oversight monitoring and assessing district budgets for fiscal solvency.*
- **COUNTY COMMITTEE**                                      *Support the county committee with school boundary information, territory transfers, unification, trustee areas.*
- **ELECTIONS**    *Liaison between districts and election offices in Santa Barbara and adjoining counties, monitor board vacancies, appointments, and orders of election, provides instruction on annual governing board meeting requirements.*
- **FINANCIAL ACCOUNTING PROCESSING AND SERVICES**                      *Apportionment and property tax distribution, deposits, month-end and year-end close, cash reconciliations, attendance, bidding requirements, facilities, ERAF, RDA, LCAP, LCFF, GASB, restricted programs, special education, student body accounting.*
- **PAYROLL PROCESSING, TAX AND RETIREMENT REPORTING**                      *County-wide production of payroll and benefit payments for employees and vendors, payroll tax reconciliations, reporting and depositing of federal and state taxes and contributions, W-2 and ACA reporting, CalPERS and CalSTRS reconciliations, reporting and depositing of employee and employer retirement contributions.*

In addition, the department provides the K-12 School Districts in Santa Barbara County with a comprehensive centralized financial services management business system. This system includes general ledger, budgeting, purchasing, personnel, fixed asset and inventory, accounts payable, payroll, and stores subsystems. An Employee Portal (county-wide) provides all employees access to view their benefits, leaves, paychecks, W-2s, etc. The primary role of our department’s support teams is to provide direct support to our districts in the day-to-day use of the centralized business systems.
